

# SOLVENT MONITORING SM-411 SERIES

**SM**

**411**

**Level monitoring system  
for solvents, eluents  
and waste container**

**SM**

**411W**

**Including web-enabled  
remote monitoring via  
smartphone or tablet**

## BENEFITS

- ✓ All solvent levels of your HPLC system at a glance
- ✓ Avoids an empty solvent bottle as well as a spilling waste container
- ✓ Contactless level monitoring for highly pure eluents
- ✓ Warning in advance when a critical level is emerging
- ✓ Be informed of your solvent levels at any time at any place via the internet

**SM-411W  
EXCLUSIVE!**

# SOLVENT MONITORING SM-411 SERIES

## Technical Data

**SM**

**411 / 411W**

- **INPUTS:** Up to 4 solvent/eluent bottles and 1 waste container
- **INDICATORS:** 5 tricolor LEDs with traffic light principle: green, yellow & red
- **WARNING:** Yellow signal when approaching a critical fill-level
- **ALARM:** Acoustic alarm and red signal after reaching the critical fill-level
- **OUTPUT:** Contact closures for solvent/eluent and waste levels
- **CONFIGURATION:** Factory setting, customized settings possible
- **SAFETY:** Eliminate danger of waste overflow and running out of solvent/eluent
- **COMMUNICATION:** Fill-levels accessible via internet

**SM-411W  
EXCLUSIVE!**
